

FUEL HEALTHY FOOD

Designed by Wattanapirom (WPR)

A modern luxury healthy café designed to connect wellness, lifestyle, and everyday experience.

Concept

Fueling Everyday Life

The project reflects energy, freshness, and balance through spatial design, lighting, and material selection. It creates a space that supports both physical and emotional well-being.

Design Approach

Spatial Planning

The space is divided into indoor seating, semi-outdoor space, and service zone, while maintaining visual continuity and openness.

Material & Tone

Natural wood, green tones, and soft textures create a calm and refined environment.

Lighting Strategy

Atmosphere Driven

Lighting defines the identity of the space. Neon signage, indirect lighting, and layered pendant lighting create a dynamic yet comfortable atmosphere.

Key Design Features

Highlights

- Clear zoning with seamless flow - Strong identity through color and lighting - Indoor-outdoor connection - Warm modern material palette - Designed for lifestyle flexibility

User Experience

Daily Destination

Fuel Healthy Food is designed as a place to pause, recharge, and reconnect — transforming everyday dining into a lifestyle experience.

Closing Statement

Modern Luxury Defined

Designed with clarity, built with intention, and experienced through atmosphere. A new definition of everyday luxury.
